

INTRODUCING CABRERA A NEW DIMENSION OF QUALITY WOOD FINISHES

With an already successful launch of the Elme' series, Funder America, Inc. is expanding the series from five colorations to eight. The fresh, new color additions include Puro, D'oro and Leggero.

The Elme' series is currently marketed in Funder's random ticking finish and our very successful Sabatini Texture. Moving forward, in conjunction with the new colorations, will be the addition of a brand new texture being offered we are calling "Cabrera". A deep rich grain that closely emulates "in line registration," "Cabrera" coordinates especially well with the particular series. An overwhelming response to the new "Cabrera" texture was received at the most recent IWF Show in Atlanta

Funder America, Inc., a 43 year privately held business, is one of the top manufacturers of thermally-fused laminates and components in the United States. The company has extensive capabilities in the panel and component divisions, along with lines of education furniture, modular fixtures, and powder-coated garage systems.

Dixie Plywood & Lumber Company has been in business since 1944 and has proudly represented Funder America under the name DixieLAM since 2001. DixieLAM is available from most of our 11 distribution centers across the southeast and Texas. For more information and samples of Cabrera, please e-mail us at cabrera@dixieply.com.
